

SAINT BEULAH MISSIONARY BAPTIST CHURCH, Enterprise, AL A total of 25 ALCOM members served on this project. The sanctuary floor was failing and had to be replaced. All the subfloor was taken up, floor joists were repaired and replaced. A new subfloor was installed. A new handicap ramp with handrails was also installed. The bathroom flooring was also compromised in the same way and had to be repaired. New snap together flooring was installed, and all bathroom fixtures were replaced. There also were water leaks and other plumbing issues that were repaired. The ladies made clothing articles to send to missions throughout the world and were also given to a local community outreach ministry. Thanks to all who worked on this project.
