

## Alabama Campers on Mission Project List as of Mar 24, 2024

*Must have Background Report on File before you can work on a project. (See Below)*

---

*These are the group projects currently scheduled for Alabama Campers on Mission. Many members also participate in individual and group efforts at other times and at other important worksites. It is important that individuals and groups report their activities and hours so that everyone may be aware of what our organization members are doing, and what project options may be available to us all. Be aware that if you have dual COM membership in another state and if you work in that state on a project, you must turn your project information into that state. Project information should not be turned into both states.*

*There is a sample report form at the end of this listing.*

---
