

## Shocco Springs

April 11th - 22, 2022

Project Leaders Danny and Vickie Stevens

Shocco Springs was breathtaking with Dogwoods and Azalea's in full bloom. Beautiful time of the year and very humbling.

The Consumers (Special Needs Adults) was able to come back to Shocco after dealing with COVID for two years. The Ladies helped in getting rooms ready and while the Consumers were there helped with anything they needed. The Consumers are so thankful for all the love and support they receive at Shocco and from COM. Several of the ladies worked in sewing room making pencil bags to go to Ecuador with Shocco team. We also helped with laundry and labeling new sheets. The men put 106 bunk beds together and placed in rooms, built ramp, built benches and picnic tables, pressure washed, painted pool house office and put drop ceilings in three conference rooms and two bathrooms. There was 36 people worked on this project with 1655 hours.
